

JAYYANT JAJU

jayyant.github.io | jayyantjaju@gmail.com

EDUCATION

Manipal Institute of Technology
B.Tech in Computer Science and Engineering
(spec. Cyber Security)

2023 - 2027 | Bengaluru, India

SKILLS

Technical: Python, GDScript, HTML, CSS, JavaScript, OracleDB, C++, C, Linux, git

Softwares: Adobe Photoshop, Adobe Premiere Pro, Aseprite

Game Engines: Godot, Unreal Engine

COURSEWORK

Data Structures & Algorithms
Object Oriented Programming
Database Management Systems
Design & Analysis of Algorithms
Embedded Systems
Problem Solving Using C

CLUBS & ACTIVITIES

Part of the Organizing Committee for 'Falak', MIT's yearly cultural fest

PROJECTS

Renegade (2D Video Game)

[\[project link\]](#)

- Designed a 2D RPG-Platformer game in the **Godot game engine** in **7 days**
- Made for **Brackeys' Game Jam 2025.1**, a game development contest with over 2,000 entries
- All character assets were created in **Aseprite** and **Photoshop**
- Gained experience in environment building and finishing gameplay loop
- Optimized player experience by fixing bugs and thorough play testing
- Game ratings: <https://itch.io/jam/brackeys-13/rate/3349960>

Tech stack: GDScript, Godot, Aseprite, Photoshop

EXPERIENCE

AiCade | JS Developer, AI Game Developer Internship

Jun '25 - Sep '25 | Bangalore, India

[\[Internship certificate\]](#)

- Developed modular 2D browser games using **JavaScript**, recreating mechanics inspired by popular Flash and mobile games.
- Designed and implemented reusable gameplay systems and UI components to support rapid prototyping and AI-editable game structures.
- Produced and optimized game assets using **Aseprite** and **Adobe Photoshop** for improved visual consistency and performance.
- Collaborated with a team of interns to conduct playtesting, provide structured feedback, and perform A/B testing to improve gameplay balance and user experience.
- Worked within standardized development SOPs to ensure scalable, maintainable, and AI-trainable game code.

Tech stack: JavaScript, HTML5, Adobe Photoshop, Aseprite

ExcitingLives.com | Graphic Design, UI/UX Design Internship

Jun '24 - Jul '24 | New Delhi, India

[\[Internship certificate\]](#)

- Generated engaging and visually appealing Instagram posts for social media marketing
- Delivered clear, actionable UI/UX feedback to improve the overall website experience
- Utilized **Figma** for webpage design and prototyping
- Collaborated on visual assets using Adobe Photoshop

Tech stack: Figma, Adobe Photoshop
